Product Database

For Acquiring Banks and Payment Providers

Confidently verify the legitimacy of dietary supplements, designer drugs, pharmaceuticals, and other healthcare products.

There are over 23,000 illicit supplements and related products in LegitScript's database. Are your merchant's products on the list?

The supplement industry is estimated at $133 billion USD annually — and growing. But supplements are under constant scrutiny by government regulators, including the US Food and Drug Administration, the US Federal Trade Commission, and those agencies' foreign counterparts. LegitScript reviews supplements and their associated marketing for regulatory compliance.

Access a database, like no other.

LegitScript helps make sure your merchants aren't selling illegal supplements and other related products. Having access to LegitScript's Product Database means having access to the world's largest, most comprehensive database of dietary supplements, designer drugs, pharmaceuticals, and other healthcare products. With LegitScript's Product Database you can check the status of 100,000 healthcare products and ingredients to verify whether your merchants are operating in compliance, or not.

Who else uses LegitScript?

Throughout the years, the quality and consistency of our data has earned the trust of enterprises and governments everywhere. LegitScript is one of only two organizations recognized by both Visa and Mastercard to provide pharmacy merchant certification and monitoring. We are also trusted by companies like Google, Bing, and Amazon to keep their platforms clean.

Pricing

Users (Same Company)	Annual Price (Per User)
1	$1,499
2-25	$999
26-50	$499

What You Get

Extensive Data

Quickly and confidently check whether supplement and other healthcare merchants are operating in compliance by evaluating the legitimacy of their healthcare products. LegitScript collects information from regulatory agencies worldwide and proactively identifies new products on a daily basis, ensuring you always have the most accurate and up-to-date information at your fingertips.

International Coverage

If your merchants are selling supplements and other healthcare products to different countries, you need data that gives you global insight. LegitScript's Product Database is international, covering regulatory information from over 50 countries and more than 100 government agencies. Product classifications can be global or country-specific so you know what products are permissible and where.

The Ability to Self-Monitor

Unlimited, unscripted access to LegitScript's Product Database means you can conduct manual checks with no daily limits, giving you the ability to monitor supplement and other healthcare merchants on your own terms.

A Trusted Partner

LegitScript is recommended by Visa, Mastercard, and other major payment networks. Our work is trusted by regulatory authorities, as well as industry-leading companies such as Google, Facebook, Amazon, and others around the world.
